

Update on the NP provided for the council meeting 06 January 2020

No significant progress has been made since the December 2019 update.

STK 2 – the housing policy for the Southern Gateway (Wing Road developments) has not yet been endorsed by the land owners. This remains an action for ND primarily with help from KH.

STK 3 has been redrafted as a result of discussions with the Southern Gateway landowners. Wording is being finalised within NPSG and will be sent to Neil Homer for his comment and approval.

All NPSG have been given a PDF version of the current NP and have been asked to make changes to their sections (policies, supporting statements etc) and proof-read the whole document for consistency with the changes etc.

Neil Homer has drafted some of the policies maps required for the final Plan, and just before Christmas was sent information he had requested to enable him to complete the policy map for the open green spaces and heritage sites, subject to the quality of our maps available. He is on holiday until 7 January 2020.

There remains a desire to get the policies and supporting documents finalised and ready for resubmission in early 2020. No date for this submission has been agreed by NPSG at time of writing.

Andy Gibbs (Harlequin Press) has agreed to produce the final NP. He has taken the existing document and has put it into a desktop publishing programme ready to incorporate our final changes. He provided a quote for the work that was accepted by the NPSG (£500 + VAT).

To be agreed by SPC

Quote by Harlequin Press for production of the NP
